ABOUT ME

I am a highly motivated MERN Stack Developer with a strong passion for building dynamic and scalable web applications. With expertise in MongoDB, Express.js, React.js, and Node.js, I specialize in developing efficient, user-friendly, and high-performance solutions. My experience includes designing and implementing RESTful APIs, managing databases, and creating responsive front-end interfaces that enhance user experience. I am always eager to learn and stay updated with the latest web development trends and technologies.

Education

FULL-STACK DEVLOPEMENT	(July, 2023 - 2024)
Morsy Multimedia & Education	
Bachelor Of Computer Application	(July, 2023 - Present)
Shree Uttar Gujarat BCA College (VNSGU)	
Commerce Standard 12	(July, 2022 - March, 2023)
Shubhalaxmi High School	

SKILLS

HTML	CSS	TAILWIND CSS	BOOTSTRAP	J-QUERY	JAVASCRIPT
	NOODE.JS	EXPRESS.JS	MONGODB	POSTMAN	GIT HUB

KEY SKILLS

Full-stack development using MERN	API development & integration
Database management with MongoDB	Frontend design with React.js & Next.js
Backend development with Node.js & Express.js	State management (Context API)
Performance optimization & debugging	Version control (Git, GitHub)

EXPERIENCE

RedSlash Tech (Internship)	(Jan 2025 to April 2025)
Mern-Stack Developer	
<ul style="list-style-type: none">Designed and developed scalable full-stack web applications using MERN Stack.Built and optimized RESTful APIs to improve data communication efficiency.Created responsive UI components using React.js and modern CSS frameworks.	

- Improved database efficiency and optimized MongoDB queries for faster performance.
- Implemented authentication & authorization mechanisms using JWT.
- Collaborated with cross-functional teams using Git & GitHub for version control.
- Conducted code reviews and debugging to ensure high code quality.

Project

Question & Answer Panel (Node.js)

- Overview

The Question-Answer Panel is a collaborative project developed using Node.js with EJS(Embedded JavaScript) as the Templating engine. This web-based platform enables users to post question, provide answer, and engage in discussions. The Project was built in a group setting, showcasing a seamless user experience.
- Security
 - Admin Authentication
 - JWT, Token, Cookie
 - Middleware
- Question-Answer Management
 - Users can post, edit, and delete questions.
 - Categorization of questions by topics or tags (e.g., "Language," "Skills").
 - User-friendly navigation with a clear layout for questions and answers.
- Project Link
 - Link : <https://devcommunity.onrender.com>

Certificate

Full-Stack Development Certificate - Issued by Veer Narmad South Gujarat University (VNSGU)

4-Months Experience Certificate - RedSlash Tech
